WORKING EXPERIENCE

Volvo Cars Asia

2023.05 – Present

Senior Product Designer

- **Led the end-to-end design** of the next-generation in-car AI voice assistant for the local market as the sole design owner. Redefined the presentation logic for multi-turn conversational follow-ups and non-interactive information. Drove iterative improvements through continuous usability testing, boosting voice task success rate by 27% and daily active users by 42%.
- **Spearheaded the localized One-HMI design system.** Leverage design tokens to establish adaptive and scalable color and layout foundations, ensuring a single source of truth in applications while streamlining components. Guaranteed high-quality, consistent experiences across multiple screen sizes.
- **Pioneered design efficiency by utilizing AI-assisted programming** to independently develop internal Figma plugins. This design-to-code automation streamlined team workflows and cut development time by 30%.
- **Spearheaded the design of Volvo media apps from scratch** within a 3-person agile team , taking ownership of interaction flows and information architecture. Defined cross-platform design specifications, including adaptive typography, day/night modes, and dynamic grids, boosting user satisfaction by 45% post-launch.

Yuanfudao

2021.06 – 2023.02

User Experience Designer

- **Core Experience & Data-Driven Optimization:** Redesigned the user onboarding flow and interactive course experiences for pre-school educational apps. Leveraged behavior funnel analysis and A/B testing to identify and eliminate experience friction, leading to a 35% increase in Day-1 feature usage and a 25% growth in core module LTV.
- **Cross-Platform Specifications:** Established standardized mobile component libraries that improved cross-functional collaboration and maintained strict brand consistency across multiple product lines.
